FAX (262) 673-8303

Opening Day! Not just something that happens at Miller Park, but also at Hartford's Lincoln Athletic Fields. Hartford youth baseball and the high school softball teams are all geared up and ready to play! It should be another great spring and summer at Lincoln Athletic Fields with games played by the High School teams, the Select Youth Baseball Traveling Club and Recreational Youth Leagues.

New this year is the opportunity for businesses and organizations to advertise on the outfield fences at Lincoln Athletic Field.

With....

- up to five days of play a week
- two fields
- starting from April through late July
- from early evening to playing under the lights,
- teams not only from Hartford but also from the High School's conference as well as teams from other communities through the Select Baseball Club's region of play

...this makes a great advertising opportunity for advertisers to reach a great many people from many different communities.

Enclosed is the banner agreement form if you are interested. Your advertising support will be used for field improvements. A high quality infield mix is the next improvement on the wish list!

Thank you for considering renewing your banner advertisement at West Side Park.

Mike Hermann
Parks and Recreation Director
